Wedding

PHOTOGRAPHY PLANNING GUIDE

01 GETTING READY

60-90 MINUTES

Choose a neat, naturally lit room for getting ready. Aim to have hair and makeup almost finished when I arrive, leaving time for bridal portraits and candids.

02 WEDDING DETAILS

15-20 MINUTES

Set aside your rings, invitations, shoes, jewelry and bouquet. Keeping everything together allows me to photograph the details without interrupting your morning.

03 FIRST LOOK & PORTRAITS

30-45 MINUTES

A first look is optional and gives you a quiet moment together. Allow enough time for relaxed, natural couple portraits without rushing.

04 CEREMONY

20-45 MINUTES

Ceremony length varies by venue and tradition. Allow a few extra minutes afterwards for congratulations and an easy transition.

05 FAMILY & WEDDING PARTY

30-45 MINUTES

Prepare a short family-photo list in advance. Ask someone familiar with both families to help gather everyone efficiently.

06 SUNSET & RECEPTION

10-15 MIN + RECEPTION

If time allows, step outside near sunset for a few portraits. Then enjoy your reception while I photograph the celebration and candid moments.
